

## The **Lime Jam**

**...is proud to offer the opportunity of a Comedy Workshop!**

Due to the mutiny raged by the musicians, we are looking to support those budding comedians by recommending Virginmirth. Courses are held around the country, but if we get enough interest, we can have our very own workshop at the Marquee and showcase the talent at the **Lime Jam...**

\* \* \*

"Virginmirth Comedy have been running regular comedy workshops since 1999.

We've now built on all the great features people have enjoyed so much in the past to provide what we believe is the premier value comedy workshop in the world.

We run our workshops with 2 workshop coaches successful in national UK comedy competitions and actively engaged in performing stand-up comedy in professional comedy clubs. The emphasis is on allowing you to try out your original material and experiment with your performance style to gain positive feedback on how best to find/apply your natural comic genius.

The objective is to provide you with the tools and insights to be able to get the best response with your material in a 5 minute open spot"
